

Message from our Alumni Committee

After spending 5 years, and for some even 7, a deep bond develops between the students and the institution, an everlasting bond. The institution becomes a part of the student and the student, a part of the institution's ever growing legacy. It is to ensure that this relationship is symbiotic, that we at the alumni committee/cell of SLS,Pune do our best to bring our alumni together through various initiatives including the facebook page, blog, link, news letter and most importantly our annual alumni meet.

This year, the Alumni Meet has been organized along with the highlight of every student's year- The annual fest 'Symbhav'. For those who have been a part of Symbhav (first started in 2009), this will be an opportunity to be a part of the celebrations once again and for those who haven't, it is an experience worth having.

Through this news letter we attempt to rekindle old memories and keep the alumnus abreast of the activities in the college to revere the bond between the alumni and the institution.
